Community Library in Puddletown (CLIP)

Dear parents

Thank you for attending the taster session on 10th June, We're really pleased to hear that your child is interested in joining our new Code Club at the community library in Puddletown (CLIP) running 5.30 – 6.30 on a Friday afternoon during term time. Commencing in September 2017.

Places are limited so please complete the details below and return to give your child permission to attend the club. I will contact you with further details nearer the starting date.

Code Club is a nationwide network of after-school coding clubs for children. The clubs are run free of charge. You can find out more at codeclub.org.uk
Code Club provide step -by- step activity sheets for children to follow so that they can create games, animations, and websites, learning the key concepts of coding at the same time. Code Club have resources to teach children Scratch, HTML/CSS, and Python. Learning to code is more than just a vocational skill: it changes the way children analyse and solve problems, and encourages creative thinking and collaboration
As there are only two public computers at the community library it would be helpful if children could bring a lap top or tablet (if they have one) to the coding club sessions.
